### **DETAILED ACTION**

Claims 1-16 are pending in the instant application.

Applicant's election without traverse of Group I (claims 1-7 and 16) along with an election of species in the reply filed on October 23, 2008 is acknowledged. Claims 8-15 are withdrawn from further consideration by the Examiner under 37 CFR 1.142(b) as being drawn to a non-elected invention.

### ***Priority***

The claim to priority as a 371 filing of PCT/JP05/05728 filed on March 28, 2005, which claims benefit of JP 2004-096472 filed on March 29, 2004 is acknowledged in the instant application.

### ***Information Disclosure Statement***

The Information Disclosure Statements filed on September 29, 2006 and October 21, 2006 have been considered by the Examiner.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Jennerwein et al. (*J. Cancer Res Clin Oncol*, 1988, 347-358).

Jennerwein et al. teach a compound of the formula

and a

complex of the formula where R is N(CH<sub>3</sub>)<sub>2</sub>. These read on the claims where R<sub>5</sub> and R<sub>10</sub> are substituted amino groups, all other R groups are hydrogen, M is a transition metal, X is a halogen atom, and L is a ligand which is a halogen atom. See page 348. Even though Jennerwein et al. do not teach the use of the complex as a catalyst, Jennerwein et al. teach the structural components of the catalyst, namely the complex. According to MPEP 2111.02, "If the body of a claim fully and intrinsically sets forth all of the limitations of the claimed invention, and the preamble merely states, for example, the purpose or intended use of the invention, rather than any distinct definition of any of the claimed invention's limitations, then the preamble is not considered a limitation and is of no significance to claim construction. *Pitney Bowes, Inc. v. Hewlett-Packard Co.*, 182 F.3d 1298, 1305, 51 USPQ2d 1161, 1165 (Fed. Cir. 1999)." Therefore, the claims to the catalyst are also anticipated by Jennerwein et al.

### **Conclusion**

Claims 1-7 are rejected. Claim 16 is currently allowable over the prior art.
